Imanol Belausteguigoitia

List of resources

Dissertation

- MSc_Data_Science_Dissertation_Imanol.pdf

Datasets

There were about 30 datasets used. The three main datasets used and all other results come directly from those three sources as an operation or directly from them.

- Mastersheet_part1.csv
- Mastersheet_part2.csv
- Mastersheet_pasrt3.csv

Coding Notebooks

- Imputation_part1.ipynb : contains imputation command lines for part I
- imputation_LATAM_part2.ipynb : contains imputation command lines for part II
- First_hyp_Data_overview_part1.ipynb : contains hypothesis testing material for part I
- First_hyp_Data_overview_Latam_part2.ipynb : contains hypothesis testing material for part II
- Hypothesis_part3.ipynb : contains hypothesis testing material for part III
- Time_series_dissertation.ipynb : contains time series analysis for part III

Notes

Readapted code is stated in each coding notebook.

Command lines do not have detailed instructions. They give evidence of the results in the dissertation and an ordered procedure.
